Take Advantage of the Most Suitable Plan For Your Needs

Plan A: \$199.⁹⁵ + H.S.T.

Premium Maintenance Service Plan with Parts Protection & Emergency Service for your Furnace

INCLUDES:

- This plan protects you against replacement of the vital operating parts listed on the back.
- One annual cleaning and conditioning of your furnace to ensure operating efficiency.
- You are protected against labour cost due to replacement part service or emergency service (except caused by fuse, burner switch, power failure, non auto run out).
- You will receive a full efficiency test (CO₂ test) and adjustments on your furnace as well as a full written report on the condition & efficiency of your heating system.

Plan B: \$149.⁹⁵ + H.S.T.

Maintenance Service Plan with Parts Protection for your Oil Fired Hot Water Tank

INCLUDES:

- This plan protects you against replacement of the vital operating parts listed on the back.
- One annual cleaning and conditioning of your water heater to ensure peak operating efficiency all year round.
- You are protected against labour cost due to replacement part service or emergency service (except caused by fuse, burner switch, power failure, non auto run out).

Household fuel oil customers may apply for either of our plans. This offer is subject to acceptance by the company following an inspection of the heating equipment.

A mileage charge may apply to out of town service calls.

If you have an oil powered water heater, or pool heater, it too may be covered by purchasing an additional plan.

Should you decide not to take advantage of any of our plans, emergency service and cleaning and conditioning will be charged at the prevailing rate per call, parts extra.

Plan A is limited to a 25 year age limit of your furnace.

Upper Canada Fuels Service Plans will automatically terminate if customer uses heating fuels supplied by anyone other than Upper Canada Fuels.

Upper Canada Fuels Service Plans liability shall not extend to damage by fire, flood, war, labour disruptions, acts of God, government authority, impassable roads or any other causes beyond Upper Canada Fuels reasonable control.

Upper Canada Fuels liability does not extend to damage caused by leaking storage tanks, lines inside or outside the house, above ground or below ground, or furnace failure, and is not liable for secondary or consequential damage.
